Message from the University of Arizona President

Dear Graduates,

Congratulations on this wonderful achievement. I hope you feel the genuine pride everyone at the University of Arizona holds for all you have accomplished. Your persistence, curiosity, and pursuit of excellence have defined your time as Wildcats.

Your path to this moment has been uniquely your own, yet collectively you have embodied values that distinguish our university: the curiosity that drives discovery, the community that sustains us, collaboration that amplifies our impact, and the culture that enriches our lives and work.

The connections you've made and the experiences you've gained will be the foundation for what lies ahead. The skills, resilience, and determination that brought you success here will continue to serve you well as you take your next steps.

As you begin this next chapter, remember that you carry with you not only a degree, but the spirit of what makes the University of Arizona a force for good. Your future holds immense promise, and the world will be better with your enthusiasm, creativity, and drive to make a lasting impact.

This institution—your alma mater—will always remain part of your story, a source of guidance, inspiration, cherished memories, and lasting community. The University of Arizona will always be here to support you and cheer for your success.

With all my best wishes,

Suresh Garimella

President, The University of Arizona

Message from the Arizona Board of Regents

Congratulations on your graduation from the University of Arizona. Today marks a significant milestone in your life, one which unlocks a world of possibilities and opportunities.

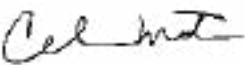

Through your hard work, dedication and persistence, you've achieved this remarkable feat and are now poised to make your mark on the world. Earning a degree from the U of A has equipped you with the cutting-edge tools, advanced knowledge and an innovative spirit to thrive in an ever-changing landscape.

As you embark on this new stage of life, remember that excellence and creativity are at the heart of everything we do at the U of A, and these values are now woven into you. You are forever a part of the community of Wildcats who are pushing boundaries, exploring new frontiers and shaping the future. Our university's commitment to action, research and technology has prepared you to tackle the challenges of a rapidly evolving world.

You are part of a new generation of leaders, innovators, entrepreneurs and changemakers who will shape the future of our state, our nation and the world. Our communities need your passion and innovative spirit to make a lasting impact. Like the U of A, you are ready to take action!

As a U of A graduate, you now represent this proud university. Remember your alma mater — your friends, mentors, professors and everyone who supported you through your college years. Stay connected to the university and remember you are forever part of the Wildcat community. We wish you the best for a future that is full of promise.

Bear down!

*Joint ROTC Color Guard: Midshipman Andrew Peabody NROTC (Right Rifle); Cadet Mark Hall AROTC (US flag); Cadet Kiana Sherry AROTC (Army Flag); MIDN Eric Martinez NROTC (Marine Corps Flag); Midshipman Hayley Wood NROTC (Navy Flag); Cadet Aaron Boudreau AFROTC (Air Force Flag); Cadet Colton Hackenyos AFROTC (Space Force Flag); Midshipman Matthew Schultz NROTC (Left Rifle).

**National Anthem performed by Meghan Gray, Lily Grubert, Brennan Wood and John Henderson. Alma Mater performed by James Kelley Carroll, Eliza Hitch, Holden Jones, Catherine Kim, Haiden Marie Pederson and Sydney Townsend. All directed by Assistant Professor of Practice Jamie Reed.

The Tradition of Commencement

Commencement — from the ancient practice of beginning life’s work at the end of an apprenticeship — has roots eight centuries in the European past. The robes and caps worn by the faculty and graduating students at the University of Arizona follow the style of Oxford University.

The bachelor’s gown, of poplin or a similar cloth, has long, pointed sleeves; the master’s gown, also of poplin, has long, closed sleeves with square ends and a slit at the elbow for the arm to come through; the doctor’s gown has full, round, open sleeves, is faced with velvet, and has three velvet stripes on the sleeves.

The formality of the blue or black gowns is relieved by the bright spectrum of colors of hood or stole, and tassel indicating the wearer’s field of study. At the University of Arizona, candidates for the bachelor’s degree do not wear hoods, but the colors of their tassels indicate the fields in which they are receiving degrees. At the moment the degree is conferred, the new bachelors move the tassels from right to left to signify their changed academic status. The candidates for advanced degrees wear hoods lined with silk in the official red and blue colors of the University. The velvet edging of the hood bears the color of the candidate’s major field.

The official color for the Doctor of Philosophy degree (Ph.D.) is dark blue, regardless of the major field of study. Tassel colors used by advanced degree candidates are: master’s, black; doctoral, old gold.

The official degree colors established by the Intercollegiate Code in 1895 are used to represent the following major fields of learning at the University of Arizona:

Agriculture, Life and Environmental Sciences	Maize
Applied Science and Technology.	Cyan
Architecture, Planning and Landscape Architecture.	Blue-Violet
Business and Public Administration	Drab (Tan)
Education	Light Blue
Engineering	Orange
Fine Arts	Dark Brown
Health Professions	Green
Human Ecology.	Maroon
Humanities	White
Information Sciences	Lemon
Law	Purple
Medicine.	Green
Music.	Pink
Nursing	Apricot
Optical Sciences	Orange
Pharmacy	Olive
Public Health	Salmon
Science	Gold
Social and Behavioral Sciences	White
Veterinary Medicine	Silver

The University of Arizona Ceremonial Mace

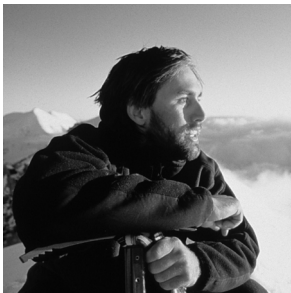

The ceremonial — or academic — mace of the University of Arizona reflects the unique character, mission and values of this institution. At Commencement, it is carried by the Chair of the Faculty and signifies the order and authority of the academic procession. The placing of the mace in its stand marks the beginning of the ceremony. Its removal signifies the end of the ceremony.

In medieval times, maces were used in combat. Later, bodyguards carried maces to protect royalty. By the 16th century, maces took on the elegance of silver, gold and precious stones, and were incorporated into academic and civil ceremonies. The symbol of authority for the city of London, for example, is the mace of the Lord Mayor.

The University of Arizona mace features a crown of sterling silver surrounding the seal of the university, which is accented with 22-karat gold. Underlying the crown are 24 acrylic strips in the school colors of red and blue, which add a jewel-like sparkle. The main shaft is made of local mesquite with a sterling silver band inscribed with The University of Arizona, accented with 22-karat gold. The tailpiece repeats the motif of the crown and surrounds a medallion with an image of a wildcat, the school mascot.

We thank the University of Arizona Foundation, the College of Fine Arts and Professor Emeritus Michael Croft for adding the gift of this mace to our Commencement traditions.

Commencement Speaker

Erik Weihenmayer
HONORARY DOCTOR OF HUMANE
LETTERS
College of Education

Erik Weihenmayer is a world-renowned adventurer best known for becoming the first blind person to summit Mount Everest. He is the only blind climber to ascend the Seven Summits – the highest peaks on each continent. A Time magazine cover story on his 2001 Mount Everest climb brought him worldwide recognition.

Weihenmayer has also climbed frozen waterfalls in Nepal and Canada, volcanoes in Ecuador and Chile, long, and difficult rock routes in his home in Colorado's Rocky Mountains, and the towering cliffs of the Italian Dolomites. And in 2014, he kayaked the entire 277 miles of the Colorado River through the Grand Canyon.

Born with a rare eye disease, Weihenmayer began losing his vision to retinoschisis when he was 14 years old. However, he resisted the idea that blindness would sweep him to the sidelines of life. He established himself as a formidable wrestler in high school, representing his home state of Connecticut in the National Junior Freestyle Wrestling Championship in Iowa. As a teenager, he also discovered rock climbing and a natural dexterity for the tactile aspects of scanning the rock with his hands and feet for holds.

Weihenmayer graduated from Boston College with a double major

in English and communications and earned a master's degree in education from Lesley University in Massachusetts. He later worked as a middle school math and English teacher at the Phoenix Country Day School in Arizona, using innovative tools like Braille seating charts and high-tech scanners to aid his teaching.

By challenging preconceptions about what it means to be blind, Weihenmayer has inspired people around the world. He is the co-founder of the nonprofit organization No Barriers, which offers transformative programs to help people with disabilities live a "no barriers life." The organization serves 10,000 people annually, living by its motto: "What's within you is stronger than what's in your way."

Weihenmayer has appeared in several feature-length documentary films. He participated in a volcano research expedition to Vanuatu in the South Pacific alongside Will Smith, a trip that was chronicled in Disney's "Welcome to Earth" series, and most recently, he is featured in the short film "Soundscape," which won a Creative Excellence Award at Banff Mountain Film Festival.

Weihenmayer is the author of the best-selling memoir "Touch the Top of the World," which was made into a feature film, and he also wrote "The Adversity Advantage" and "No Barriers: A Blind Man's Journey to Kayak the Grand Canyon."

Student Awards

Patrick T. Quintero
ROBIE MEDAL

Patrick Tanori Quintero is graduating summa cum laude with a Bachelor of Arts in psychology with a double minor in Spanish and human development and family sciences. As a first-generation Hispanic student from Tucson, he has devoted his time at the University of Arizona to fostering an inclusive and supportive academic environment through research, mentorship and community engagement.

During his undergraduate studies, Patrick contributed to three research projects: the Child Cognition Lab, which examines language acquisition in infants; the Nexus Lab, which studies social support in student-teacher relationships in middle schools; and the Shades of Identity Study, which explores racial and cultural identity in college students.

Beyond research, Patrick has been dedicated to student and community support. As a College of Science Ambassador, he helped connect prospective students with research and academic resources. As a LifeSTEP mentor in the Department of Psychology, he provided individualized support to youth facing behavioral and social challenges, reinforcing his commitment to mental health accessibility for underrepresented youth.

One of Patrick's greatest support systems at the University of Arizona was the Ronald E. McNair Postbaccalaureate Achievement Program. Under the mentorship

of assistant professor of practice and McNair Program Director Caitlin Rosario Kelly, he conducted independent research and presented his findings at six national and local conferences.

This fall, Patrick will begin a joint doctoral program in clinical and developmental psychology at the University of Pittsburgh. His research will focus on how educational resilience buffers the effects of poly-victimization on adolescent mental health and how trauma-informed interventions shape long-term academic and psychological outcomes for Latine youth and families.

Patrick's achievements have been recognized through multiple honors, including the Adrienne G. and Amy "Jace" Hurley Scholarship, awarded to first-generation, high-achieving psychology students at the University of Arizona. He has also received the Hispanic Alumni Club Scholarship and the Ánimo Award for his academic excellence, research contributions and dedication to the Hispanic community.

Committed to dismantling barriers in education and mental health, Patrick strives to ensure that research, policy and practice work together to empower underrepresented communities for generations to come.

Aaliyah Thompson-Mazzeo
ROBIE MEDAL

Aaliyah Thompson-Mazzeo is graduating magna cum laude with a Bachelor of Science in mechanical engineering and minors in dance,

mathematics and biomedical engineering. Originally from Irvine, California, Aaliyah quickly made a home for herself in Wildcat country.

Dance has always been a major part of her life. When faced with the difficult decision between pursuing a career in dance or engineering, Aaliyah left her dreams of being a professional dancer to find a bigger purpose. With a renewed vision, she dove headfirst into immersing herself in her community.

Aaliyah took engineering leadership positions in Engineering Student Council and the National Society of Black Engineers. As director of social and outreach and then president of ESC, she led large-scale events like Engineers Week and the Engineers' Ball, oversaw the council when hosting the Western Regional Conference for the National Association of Engineering Student Councils, and introduced a community service executive position to recenter ESC around building community internally and in Tucson. As programs chair for NSBE, she organized study sessions and networking forums to connect Black engineers on campus. Aaliyah also volunteered at STEM outreach events such as SARSEF Arizona STEM Adventure and MESA Day as well as provided free tutoring at Imago Dei Middle School and mentored high school girls through the Society of Women Engineers. Additionally, Aaliyah is a tour guide for Arizona Ambassadors and a former member of Links Junior Honorary, where she served as apparel chair and selections chair.

Although she didn't pursue a dance major, Aaliyah didn't give up her dreams of dancing in college and made the Arizona Pomline her sophomore year. She has been a dancer for the Arizona Pomline and the Sudler Trophy-winning Pride of Arizona Marching Band and has performed at countless athletics

Student Awards

events and university affairs as well as volunteered in the Tucson community for Love of Reading week and the Ronald McDonald House.

Currently, Aaliyah serves as vice president of Bobcat Senior Honorary, where she helped organize Homecoming, engaged students on Giving Day, and is currently planning Alumni Weekend and the Pinning Ceremony for the next class of outstanding Bobcats. Also in her senior year, Aaliyah focused her time on research. As a Ronald E. McNair Scholar, she works as an undergraduate researcher in Dr. Andrew Fuglevand's lab, where she investigates noninvasive methods to control a robotic arm for rehabilitation methods for high-level tetraplegics.

Aaliyah's dedication and leadership have earned her numerous honors during her time at the University of Arizona. She has won more than \$100,000 in scholarships, including the Giuè Family Scholarship, the William and Marguerite Hesketh Scholarship, the Gary W. Harper Mechanical Engineering Scholarship, and the NAACP Tucson Black Excellence Scholarship. She was also a member of the inaugural cohort of a Black Excellence Scholars in the W.A. Franke Honors College and is a member of Tau Beta Pi Engineering Honor Society.

Aaliyah is deeply grateful for the opportunities and support she has received at the University of Arizona and looks forward to the next chapter in her academic and professional journey. She is excited to share that she will be attending Johns Hopkins University in the fall as a Vivien Thomas Scholar to pursue her doctorate in biomedical engineering. Aaliyah's passion for biomedical engineering stems from her experiences with dance injuries, and she hopes to develop innovative treatments for nerve and spinal cord injuries and prosthetic development, combining her

engineering expertise with her love for movement.

Ryan Sadowsky
NUGENT AWARD

Ryan Sadowsky is graduating with a Bachelor of Science in Business Administration, majoring in management information systems. A proud Tucson native and third-generation Wildcat, he is committed to giving back to his community. In high school, he founded The FreshSole Project, donating more than 1,500 pairs of shoes to families in need, reinforcing his passion for service.

At the U of A, Ryan's college experience has been defined by leadership, mentorship and innovation. As president of the Eller Leadership Board, which facilitates the Eller Rising Professionals program, he mentored more than 120 first-year students annually, helping them navigate their academic and professional paths.

Through Eller Rising Professionals, he led an initiative with Junior Achievement, organizing club members to teach financial literacy at an underserved Tucson elementary school, an effort that earned Eller the Legacy Award from Junior Achievement.

Ryan's passion for technology also shaped his contributions. He developed automation tools that streamlined the Eller College of Management professional admissions process, improving efficiency and accessibility. As a student coordinator for Professional Admissions and Curriculum

Management, he managed course scheduling and student records, enhancing the student experience. His technical skills were further sharpened as a summer analyst in bank loan trade management at Goldman Sachs, where he optimized financial processes and built automation tools for trading operations.

For his leadership, service and academic excellence, Ryan was twice honored as an Eller Scholar of the Year, recognizing his significant contributions to the college.

After graduation, he will join Merit Foods of Arizona, his family's business, leveraging his expertise in technology and operations to drive growth while further continuing the businesses relationship with the University of Arizona. He also plans on continuing his commitment to service as a board member for Junior Achievement of Southern Arizona. Ryan is deeply grateful for the Eller community, his parents Matt and Shelley, and his close friends. He looks forward to making a lasting impact in his hometown.

Siena Shedd
NUGENT AWARD

Siena Sevillano Shedd is graduating with a Bachelor of Science in physiology and medical sciences with a minor in biochemistry.

Siena, the eldest of three and firstborn to two University of Arizona graduates, grew up across the United States and abroad in Vinhedo, Brazil. Her family now resides in Pleasanton, California.

Student Awards

During her four years at the University of Arizona, Siena has been a leader within the Department of Molecular and Cellular Biology. After serving as a preceptor for two semesters, Siena became a teacher's assistant and actively contributed to student learning by leading reviews and mentoring and managing instructional resources.

Siena's leadership extends to her time in Women in Medicine and Science, an organization that advocates for women's advancement in science fields. As a local outreach committee member, she led teams of students in engaging with their community and establishing partnerships with community organizations. Those efforts led to the club's selection for the Associated Students of the University of Arizona Outstanding Community Engagement Award.

Siena has dedicated herself to a lifetime of service in medicine. As an athletic training technician in McKale Memorial Center, she's worked with athletic trainers across multiple sports to gain hands-on experience in sports medicine. When she's not cheering them on at games, Siena supports U of A athletes by assisting with rehabilitation treatment to help them reach their performance goals.

Siena has also used her linguistic skills to bridge communication gaps in health care settings. As a medical interpreter at Clinica Amistad and clinics within the Commitment to Underserved People program, she has facilitated access to care for uninsured Spanish-speaking patients.

Beyond her clinical experiences, Siena is committed to serving vulnerable populations. At Banner Health, she supported pediatric patients and their families, and at Sister José Women's Center, she created a welcoming space for women experiencing

homelessness. Her dedication extends internationally through the MexZona Medical Services nonprofit, where she helps deliver free medical care to underserved communities in Mexico.

After graduation, Siena plans to pursue a medical degree so she can continue advocating for accessible health care and patient-centered care as a physician.

Nathaniel Cross
FREEMAN MEDAL

Nathaniel Cross is graduating with honors with a Bachelor of Arts in political science and Spanish. Born in the United Kingdom, Nathaniel has called Tucson home for most of his life.

Nathaniel's own migration to the United States at a young age heightened his awareness for the importance of public service and constituent casework in immigration fields, catalyzing the community commitment that informs the receipt of this award. Throughout his undergraduate career at the University of Arizona, Nathaniel has worked to empower local migrant communities as an intern with Chicanos Por La Causa, a legal aid nonprofit, by aiding in the design and execution of biannual naturalization fairs, which help residents apply for citizenship at no cost. His devotion to this organization led to his selection as an intern with Mellon-Fronteridades intern – a university program elevating historically overlooked narratives – which has empowered Nathaniel to bring greater attention

to immigration issues facing Tucson and Southern Arizona communities through his creation of photojournalism exposition.

Nathaniel's commitment to increasing the accessibility of quality immigration services is closely tied to his greater personal philosophy of empathetic and compassionate public service, also exhibited in his research as a Wildcat. As a political science research assistant, Nathaniel is studying methods to reduce gun violence and violent crimes around Tucson by investing in alternatives to law enforcement and collaborations with community partners.

Nathaniel is a multi-semester recipient of the Dean's List with Distinction and Highest Academic Distinction awards. He has also been honored by his selection as a United States Senate Youth Program scholar, the Frances McClelland Youth Vision Award, and the Tara S. O'Connor Memorial and Patricia MacCordale scholarships.

In 2024, Nathaniel began an accelerated Master of Public Policy degree program in the School of Government and Public Policy. After graduation, Nathaniel plans to finish his master's degree and hopes to pursue international public service as a Fulbright Scholar or with the Peace Corps.

Katie Nguyen
FREEMAN MEDAL

Katie Nguyen is graduating with dual degrees in physiology and medical sciences from the College of Medicine – Tucson and

Student Awards

molecular and cellular biology from the College of Science, with minors in personal and family financial planning and biochemistry. A first-generation college student from Chandler, Arizona, she is passionate about mentorship, inclusion and health care, dedicating her undergraduate career to fostering supportive spaces for students and underserved communities.

Katie's involvement with Asian Pacific American Student Affairs helped her embrace her cultural identity. She began as an intern for the Vietnamese Student Association and Golden Lotus, a Vietnamese cultural dance group, eventually stepping into leadership roles to build community, celebrate heritage and mentor future leaders.

Her commitment extends into academics, where she supports students as a teaching assistant for MCB181R: Introductory Biology under Dr. Leitner, and previously, Dr. Hester. These experiences reinforced her belief that effective teaching centers on recognizing students' unique needs and empowering them with the skills to succeed in their future careers.

Determined to be the mentor she once needed, Katie serves as an APASA peer mentor at the Thrive Center, helping first-year students navigate university life, mental health challenges and identity exploration.

Beyond campus, Katie has worked as a nursing assistant and caregiver, deepening her conviction that meaningful patient care extends beyond medical treatment. Committed to health care accessibility, she volunteers with initiatives supporting unhoused individuals, serving as a community health specialist at Z Mansion Clinic.

Katie's greatest inspiration comes from working with children with special health care needs, particularly through adaptive recreation and as lead child supervisor at Saguaro City Music Theatre.

Katie's dedication has earned recognition through the Betty B. Chastain Educational Foundation Scholarship and the Asian American Faculty, Staff and Alumni Association Tuition Scholarship.

After graduation, Katie will continue working with Saguaro City Music Theatre and mentoring students at the U of A. Committed to health care advocacy, she aspires to become a pediatric physician and one day, a medical dean shaping the future of medical education.

Angela White
PROVOST AWARD

Angela White is graduating summa cum laude with a Bachelor of Science, double majoring in neuroscience and cognitive science, and psychological science.

After a long, winding journey as a nontraditional student, Angela is truly humbled to be graduating and deeply grateful for the enduring support of her family, friends, teachers and each of her wonderful mentors. As a child with early-onset, debilitating mental illness, she held a native curiosity and wonder for the natural world, but was unable to complete high school and pursue her academic interests. Many years later as a working adult, Angela began taking classes at Pima Community College before transferring to the University of Arizona.

Angela's academic work is profoundly informed and inspired by the invaluable lessons of adversity in her life. Under the mentorship of Dr. Zachary Cohen

in the Personalized Treatment Lab, she founded the Leveraging Exercise for Anxiety and Depression project. The multiphase study employs scalable research methods to design, deliver and study exercise interventions for individuals suffering from anxiety and depression. Under the mentorship of Distinguished Professor Dr. John Allen, she conducted research examining the effect of exercise on key neurogenic targets, including brain-derived neurotrophic factor and tropomyosin receptor kinase B. Using an interdisciplinary approach, LEAD aims to support the development and delivery of accessible, effective, personalized treatments and propel the integration of exercise-based treatment into clinical practice.

Angela is the grateful recipient of numerous awards, including the W.A. Franke Honors College Exploratory Mini-Grant, a Laura and Arch Brown Scholarship, a Phi Theta Kappa Hites Transfer Scholarship, an All-USA Academic Team Scholarship, and an All-Arizona Academic Team Scholarship. She is also the founder of the community-driven GROW (Gathering Resources to Optimize Wealth) Academy, which has provided free financial literacy education to more than 500 adolescents and adults.

After graduation, Angela plans to pursue a doctorate in clinical psychology at the University of Arizona. She has a special love for teaching and mentorship, and she hopes to be involved in this work for the rest of her life.

Alumni Achievement Award

Zachary Fenton, BSBA, Finance
CLASS OF 2009
Principal, ZFI Holdings

Zach Fenton is a distinguished figure in Tucson's real estate and hospitality sectors, recognized for his entrepreneurial acumen and commitment to community development. As the principal of ZFI Holdings LLC, a diversified real estate investment and syndication company, Zach oversees a portfolio of over 40 real estate investments. These encompass office buildings, retail centers, warehouses, apartments, restaurants, and mixed-use transit-oriented developments.

A Tucson native, Zach graduated from the University of Arizona Eller College of Management with a 4.0 GPA in finance, laying a solid foundation for his future endeavors. He lived in Los Angeles for two years working as an analyst for a high net worth family office before returning to Tucson in 2011 to found his own investment company. In the wake of the Great Recession, Zach saw an opportunity to acquire underperforming assets in Tucson and reposition them. He also began investing in downtown Tucson at the onset of its resurgence.

ZFI Holdings has been instrumental in revitalizing several iconic Tucson properties. Notable projects include: One South Church, the city's tallest building; Seventh Avenue Lofts, a transformation of the former Asarco Mining headquarters into loft apartments; and the Indian Trading Post, a historic building on East Congress Street slated for a future restaurant and bar.

Beyond his real estate pursuits, Zach values family collaboration and community involvement. This is evident in ventures like Reilly Craft Pizza & Drink, Fentonelli's Pizzeria & Bar, and nationally recognized BATA, three restaurants where Zach partnered with his siblings to create dining experiences that celebrate their shared heritage and passion for hospitality. Zach has served on several nonprofit boards and is delighted at any opportunity to volunteer for an Eller College event.

Zach's dedication to Tucson's growth and his multifaceted contributions to its real estate and culinary landscapes underscore his role as a pivotal figure in the city's ongoing development.

Honorary Degrees

Ginny L. Clements
HONORARY DOCTOR OF SCIENCE
College of Medicine – Tucson,
Department of Pediatrics

Ginny L. Clements is a businesswoman recognized for her philanthropic service to many Tucson nonprofit organizations and to the University of Arizona, benefiting cancer research, athletic initiatives and art programs.

She is originally from the small farming town Fowler, California. At 15, she was diagnosed with breast cancer. Recovery was hard, but she thrived thanks to the support of friends and family. She met her late husband, Bill Clements, in January 1966 in San Francisco. After two-and-a-half weeks of dating, he asked her to marry him, and they were married in May of that year. They had two children, Kimberly and Christopher, both born in Phoenix. In 1974, the family moved to Tucson, where Bill founded Golden Eagle Distributors, Inc.

In 1995, Bill passed away. Ginny became chairwoman, CEO and treasurer of Golden Eagle Distributors, Inc. She led the company to record sales and growth, while keeping a focus on social responsibility. Because of the type of business she was in, she wanted to do an alcohol awareness program, and in 1998, she was instrumental in inviting a national speaker to address over 2,500 high school students in the Tucson area. Because of the endeavor's success, then-Tucson Mayor Bob Walkup named April 6, 2001, "Ginny Clements Day" for Tucson.

Clements has served on more than 50 boards throughout Arizona and nationally, including the advisory boards of the Susan G. Komen Break Cancer Foundation and the American Cancer Society. She was a member of the Committee of 200, an organization that recognizes women business leaders around the world. She also received the National Beer Wholesaler Association's Public Affairs Award and was the first woman elected to the association's Manager Committee. She is an active member of advisory boards for the U of A Steele Children's Research Center, the U of A Cancer Center and Angel Charity for Children, Inc., which she also chaired in 1990. She has been a member of the U of A Foundation board of trustees for 18 years.

Her donations and fundraising efforts at the U of A include being the first donor with her husband, Tom Rogers, to donate \$2 million to provide a \$25 million challenge gift to the Sarver Heart Center Cardiovascular Institute. She also led a fundraiser to establish the Louise Thomas Endowed Chair and raised \$500,000 for the College of Medicine Steele Children's Research Center. She has made gifts to the Ginny L. Clements Academic Center, the Ginny L. Clements Breast Cancer Research Institute, the Ginny L. Clements Breast Cancer Research Fund, the William M. "Bill" Clements Golf Center, the Dr. David Alberts Endowed Fellowship for Cancer Prevention and the Men's Basketball Excellence Operations.

In 2009, Clements married Tom Rogers, president of R&R Products, Inc., a golf and turf replacement products company. The two have a blended family, with children Christopher, Kimberly, Tiffany and Michelle and seven grandchildren.

William A. Franke
HONORARY DOCTOR OF
HUMANE LETTERS
W.A. Franke Honors College

William A. Franke is a commercial aviation and private equity executive who has helped redefine the low-cost airline business model. He also is a philanthropist for whom the University of Arizona W.A. Franke Honors College is named.

Franke is currently managing partner of Indigo Partners LLC, a global private equity firm that specializes in the aviation industry. In that role, he oversees several airlines, including Frontier Airlines in the U.S., Wizz Air in Hungary, JetSMART in Chile and Argentina, and Volaris in Mexico. Franke also serves as chair of APIJET, an aviation software platform, and CleanJoule, a sustainable aviation fuel company.

Franke was born in Texas and grew up in Latin America, where his multicultural upbringing shaped his worldview. He earned a bachelor's degree and a law degree from Stanford University and practiced law briefly in Spokane, Washington, before becoming CEO of Southwest Forest Industries, a Flagstaff-based lumber company, in 1970. He led the company until 1987.

Franke oversaw major restructuring efforts while serving on the boards of Valley National Bank and Circle K. He also founded Franke & Company, a family investment office. Franke led America West Airlines as CEO from 1992 to 2001, helping revive the company and

Honorary Degrees

integrate it with American Airlines. He also co-led Newbridge Latin America, a private equity fund specializing in investments across the region.

Franke and his family have made many philanthropic investments, primarily related to education and health care. The U of A Honors College became the W.A. Franke Honors College in 2021 following a \$25 million gift from Franke and his wife, Carolyn, to support student scholarships, stipends and study abroad opportunities. The Frankes' philanthropy has also helped fund programs and research at Northern Arizona University, Stanford University, the Mayo Clinic Medical School and other institutions.

Franke and his wife, Carolyn, have five children, nine grandchildren and one great-grandchild. They divide their time among homes in Arizona, Texas and Montana.

Mark Smith
HONORARY DOCTOR OF SCIENCE
College of Agriculture, Life and
Environmental Sciences

Mark Smith is president of Smith Farms Company of Yuma, Inc., and is a leader in sustainable agriculture and water resource management.

In 1977, he graduated from the University of Arizona with degrees in agronomy, plant genetics and agricultural business. After graduating, Smith worked as an agronomist for JG Boswell Company of Bakersfield, California, before joining the family business and launching a farming operation in Yuma, Arizona. He now manages

a 1,600-acre farm that produces organic and conventional winter vegetables, leafy greens and durum wheat. Under his leadership, Smith Farms has become a leader in developing resource-conscious farming strategies that promote sustainable practices in arid environments. Smith has also championed research on managing desert soil salinity.

In 2013, he became a founding advisory board member of the U of A Yuma Center of Excellence for Desert Agriculture, a public-private partnership with the U of A focused on water consumption efficiency and research and best practices for desert crop production.

A dedicated advocate for water conservation, Smith has served as a director on the Yuma Irrigation District Governing Board since 1983 and has been the organization's president since 1994. He has also served on the Imperial Dam Advisory Board, the Governor's Water Augmentation Council and the Gila Gravity Administrative Board.

Recognizing the importance of modern technology in agriculture, Smith in 2021 spearheaded the creation of a broadband network designed for farming operations. The network will cover 160,000 acres and support data-driven, precision farming that maximizes both productivity, water conservation and sustainability.

In recognition of his leadership and contributions, Smith has received a number of awards, including the University of Arizona Outstanding Achiever Award in 2011, the Agribusiness and Water Council of Arizona Special Recognition Award for years of dedicated service in the field of agriculture in Arizona in 2015, the Agribusiness and Water Council of Arizona Special Recognition Award for major contributions to the success of the Yuma Agricultural Water Study

in 2016, the U of A College of Agriculture, Life and Environmental Sciences Lifetime Achievement Award in 2017, the Arizona Farm Bureau's Farmer of the Year Award in 2022, the American Vegetable Grower's National Grower Achievement Award in 2023 and the Arizona Department of Agriculture Director's Impact Award for Agricultural and Community Advancement in 2025.

Smith and his wife, Lekki, are supporters of the U of A College of Agriculture, Life and Environmental Sciences and were instrumental contributors to renovations of the CALES Career Center and Yuma Agricultural Center. Their sons, Kyle and Eric, and daughter, Kelly, are all involved in agriculture and are alumni of the U of A.

Graduation with Honors

The University of Arizona W.A. Franke Honors College offers admission to a highly selective group of academically distinguished students. Students who graduate with honors are awarded a gold medallion to wear at the Commencement ceremony. Graduation with honors signifies that students have satisfied 18-30 hours of honors academic work, earned a cumulative GPA of 3.5 or greater, and completed a senior honors thesis, design project or capstone experience. The honors academic experience is more exploratory, experimental and open-ended than the usual classroom experiences. Honors academic work enables students to engage the material in more depth, to actively participate in scholarly and creative processes, and to personalize their learning through imaginative, critical and applied experiences.

Special opportunities provided to honors students include: unique classes, independent study projects, small group discussions, topic-centered colloquia, informal interaction between faculty and students outside the classroom, funding for undergraduate research, one-on-one preparation for graduate and professional school, and advising for students interested in nationally competitive scholarships and fellowships. Graduates of the University of Arizona W.A. Franke Honors College are highly successful. The majority of students graduating with honors go on to professional or graduate schools; the rest immediately enter the workforce in fields such as architecture, engineering and teaching.
